

We are **Thankful** for

Chair's Message

I've been giving a lot of thought to what I'm thankful for and I've realized there's not enough space on these pages to include it all. If the last few years, and the current world climate, have taught us anything, it's that we are truly blessed.

We have come through a global pandemic, and though we've not made it completely to the other side, we can see it now. It has made us stronger, and of the many lessons learned, one was that we have nature all around us. When breathing fresh air was one of the few joys available through public health orders, I realized how thankful I am for our beautiful environment. May we never take it for granted again.

We've had to rally during these difficult times, and I am thankful for my community. Rarely has there been a time in our lives when we were so united in a common battle. Public health orders kept us physically distant, but we were cradled so tightly by a sense of community, that we were ok. I hope that sense of security lingers for a long time.

I'm always impressed with young people. They are resourceful, optimistic to a fault, and brave. These past couple of years have reminded me of the power of youth, and that they are a shining light and the leaders of tomorrow, and I am eternally thankful for them.

And finally, I'm thankful for all the wonderful people who donate to the Selkirk & District Community Foundation. Your commitment to our cause is inspiring and your resilience has been evident through these tough times. I am thankful for each and every one of you. Thank you for ensuring the SDCF will be "Here for Good"

Beautiful Environment

Ukrainian dance groups thankful for culture, community

Grants to the Troyanda Dance Ensemble and Rossdale Ukrainian Dance School, pictured above, have both groups thankful they can honour their heritage at this extremely difficult time.

Every time the members of Troyanda Dance Ensemble and Rossdale Ukrainian Dance School perform, they have Ukraine in their hearts.

"Ukraine is our homeland. She is our heart and our soul. In November 2022, Troyanda was planning to stage a production entitled Snow Folk Song, but with the devastating events that have come to Ukraine, we are changing direction," said Troyanda's Carina Breanne Romagnoli.

The Selkirk & District Community Foundation provided a grant to Troyanda to help with a

new production that focuses on the soul (dusha) of Ukraine and its people using music and inspiration from the Winnipeg-based musicians, Paris to Kyiv.

The Troyanda board members say they are thankful for the ability to deepen the connection to their ancestral roots through the preservation and promotion of Ukrainian culture.

The Rossdale Ukrainian Dance School received a grant to help purchase new costumes for their intermediate group.

The costumes purchased will be for a Buko or Transcarpathian dance.

Rossdale President Crystal Leochko Johnson said they had ordered costumes from Postmark Ukraine that couldn't be shipped because the owner was fleeing her home.

"A lot of people in our community have friends and family who they are worried about," she said.

"It has been difficult for our School to resolve the idea of celebrating while our people are suffering."

They've also pulled a dance the Vitretz performing group had been working on for

about a year because it had some Russian influence in it.

"It didn't seem appropriate right now," Leochko Johnson said.

Still, they are thankful.

"Rossdale Ukrainian Dance School is thankful for our community - we have so many families who have stuck with us through all of the challenges of the past two years, and have been very understanding," Leochko Johnson said.

The Selkirk & District Community Foundation supports and serves on Treaty One Land and the home of the Anishinaabeg, Cree, OjjiCree, Dakota, Dene and Metis peoples. We acknowledge that our Indigenous peoples are the stewards and guardians of this land. As a community and workplace that embraces the values of diversity and inclusion, we honour and celebrate our Indigenous nations, their traditional knowledge and their contributions to all our communities. We acknowledge the harms of our shared history on Indigenous people, and that we pursue a path forward that is inclusive and supportive of reconciliation within all our communities.

Inclusion Selkirk's Joy Wozney, Maria Freeman and Sharon Holmes, at the Wish Me store on Eveline, are thankful for an inclusive community.

Organization & Project	Awarded
Community Fund	
Inclusion Selkirk - Eveline Street Building Project phase two	\$ 25,000
Friends of Old St. Jude's - Vive le Vestibule	\$ 20,000

Scholarship and bursary recipients thankful for continued learning

Graduating from high school is one of the big milestones in a young life; receiving a scholarship at your grad ceremony makes it bigger and the next step in your education journey more manageable.

The Selkirk & District Community Foundation has put educational support into overdrive this year with new funds and one time grants providing 43 students with scholarships or bursaries this year.

Mia Loeppy graduated from the Comp in 2021 and was presented with the Shirley Onishko Kuivenhoven Memorial Bursary, and she knows how this year's recipients will benefit.

"I am extremely thankful to have received the Shirley Onishko Kuivenhoven Memorial Bursary as it has been a big support in my pursuit of post-secondary education," said Loeppy, who's now studying at Canadian Mennonite University.

"Thanks to the generosity of others, this assistance has allowed me to focus on my studies, and to discover what I am passionate about!"

Loeppy originally thought she would go into education, but is now taking a wide range of classes before choosing what degree she will pursue.

Victoria Goosen also graduated from the Comp in 2021 and was the recipient of the Vicki Cielen Memorial Scholarship. She too is thankful that she can concentrate on her studies at the University of Winnipeg, and she said she was inspired by Cielen, a teacher and former principal at the Comp who passed away in 2014.

"The scholarship helped me in my pursuit of further education by lessening the stress that comes with financing post-secondary education. The lessened stress allowed me to focus more on the subject areas I want to pursue and enjoy my chosen courses more fully," Goosen said.

"Receiving the Vicki Cielen Memorial Scholarship was special because she was an educational leader, and I hope to involve my studies in educational psychology. It was gratifying to see the hard work that I put into my high school studies result in receiving scholarships."

Loeppy and Goosen are both thankful they can focus on learning without financial stresses.

Strategic planning, Vital Signs alive and well in 2022

When the Selkirk & District Community Foundation released its 2018 Vital Signs report – Mind the Gap – its members knew it was a start, an in-depth look at the health of our region at that moment in time.

Now, in 2022, the Foundation is in the early stages of creating a new Strategic Plan and once again taking the pulse of the community with an update to Vital Signs, the report that "minds the gap" of where the community is at and what it needs to be healthy. The nine-member board thought it was important to strike another community "checkup" taking the effects of COVID into account and develop the next Vital Signs.

This new document will ensure the Foundation is more than just a good steward of donors' money – it's an entity that listens to the needs and dreams of the community so that the \$34 million the Foundation is expected to have by 2030, is being used in the best way possible.

The board has made it a top priority to focus more of its leadership role in connecting people in the community who have a keen interest in improving affordable housing for the next Vital Signs report. In doing that the SDCF is going to start to explore new ways of using financial assets to leverage money for organizations that goes beyond short-term grants. It will start to research the value of more long-term and impactful social investments.

The board has also recognized it needs to continue to grow and improve the way it lives the promise to be equitable, diverse, inclusive and create a sense of belonging in the way it operates at all levels.

These are big goals that makes it an exciting time to be "Here for Good"

If you have ideas on how the Foundation can do a better job, for you, contact them at selkirkfoundation@shaw.ca or 204-785-9755.

Tennis for the generations in Victoria Beach

In Victoria Beach, tennis is a way of life and the courts that have served the community for almost 100 years need more than a little love, they need to be replaced.

The Selkirk & District Community Foundation's Western Canada Games Legacy Fund will provide a grant to help fund a portion of the new nets and posts.

The six courts that make up the Victoria Beach Village Green will be resurfaced.

John Heppenstall, President of the Tennis Club, says he's thankful for the SDCF grant that will help keep future generations of beach goers winning game, set and match.

"We're very thankful for the grant. Tennis started about 100 years ago at the beach and various generations have had to step up to take us from three courts to six courts and then take the six courts to full hard courts," Heppenstall said.

"Now it's our generation's turn to rebuild the entire tennis facility to make sure it's going to be there for the next generation. It's quite an interesting progression."

Players of all ages take to the courts during the summer months, and Heppenstall said they have great programming for juniors and have had a number go on to high level, competitive tennis. And except for a few kids hired during summer to run the courts, it's a total volunteer effort.

"That's why I'm part of it because it was so good to me when I was a kid. I've been at the beach since I was 6 years old, grew up playing tennis and now it's our turn to give back."

Red River North Trails Association says thanks for the connections

A new trail that will bridge the east and west sides of the Red River will ultimately make connections with 5 communities.

For Dan Lester and the Red River North Trails Association, connections are what they're all about and what they're thankful for.

The Selkirk & District Community Foundation is one of the connections that made it possible for a final stretch of trail to be completed that will link 5 communities in active transportation.

A Foundation grant will fund part of the trail that will connect the Duff Roblin Parkway on the west side of the Floodway with Hwy. 44 in Lockport on the east.

"It's the last link to connect the proper trail treadway from the Floodway to Lockport," Lester, the Trail Association's Executive Director, said.

There is a trail that exists in that location, but it's a grass pasture trail, Lester said, and doesn't provide proper footing.

"In order to be safe, you want a good treadway so people can go from the Floodway to Lockport and vice versa," Lester said.

"With this trail, it now connects Selkirk, St. Andrews, over to St. Clements and Lockport, then it connects to the Floodway and on to Birds Hill Park and Winnipeg and East St. Paul."

The trail will complement the current Lockport Bridge construction which includes an active transportation component.

In Memory of You

This past year communities of Selkirk, St. Andrews and St. Clements lost some very committed, loving community leaders, volunteers, philanthropists and friends. Their thoughtful families asked that donations be made in their memory to the Selkirk & District Community Foundation, for which we are extremely grateful.
